## Stainless Steel Hydraulic Separators with Flange Connections

LLH400M

LLH600M

- M50 grade neodymium rod magnets
- 10,000 gauss holding force, temperature rated to 90C
- Operation temperature range, 0-100°C/132-270°F
- 1/2" Air vent, Drain, Included

- Coalescing Media: Stainless Steel
- Connection for makeup water
- Max. Operational Pressure, 10 bar/150 PSI
- Pressure Gauge, Included
